

# THUNDERBIRD

## INFORMATION UPDATE

### ENGAGEMENT & CONSULTATION

SEPTEMBER 2018

At Sheffield Resources, social responsibility means taking account of the impacts of Thunderbird on the local Kimberley community and on the environment, that arise from our business decisions.

In September and October, our team will undertake a round of engagement and consultation as part of the Thunderbird community impact management process, and before the start of a two-year construction phase.

#### PLEASE CONTACT US TO RSVP OR TO ARRANGE A MEETING

Sheffield's team shall be engaging with the community, government and stakeholders in Broome, Derby and on the Dampier Peninsula.

RSVPs are *essential* to enable planning and catering.

**Derby events RSVP** Cassandra McCumstie 6555 8736  
 cmccumstie@sheffieldresources.com.au

**Broome events RSVP** Sue Weir 6555 8716  
 sweir@sheffieldresources.com.au

### THUNDERBIRD COMMUNITY IMPACT MANAGEMENT

In the 2016-2017 phase of the Thunderbird community impact management process, consultation was undertaken to identify community issues, impacts and opportunities. The views of stakeholders were captured, and a preliminary analysis undertaken and presented in the Thunderbird Bankable Feasibility Study (BFS) and back to the community.

As we prepare for construction, the current phase of the process has seen further analysis of stakeholder feedback; and, development of management plans in response to the findings.

The purpose of the upcoming community consultation task is to validate stakeholder and community sentiments and priority themes, and to present the high-level management responses.

#### COMMUNITY SENTIMENT: THUNDERBIRD PROJECT 2018

### THUNDERBIRD MINERAL SANDS PROJECT

Located midway between Derby and Broome, Thunderbird is a large-scale, long life mineral sands mining and processing project with low environmental impacts and long term economic and community benefits.

Sheffield Resources is proposing to undertake mineral sands mining from the Thunderbird deposit, and to transport product to Derby and Broome for export through their ports.

A sustainable project, Thunderbird will help meet the needs of the community well into the future promoting cultural and social values through local employment, business and community initiatives.
